

REMARKS AND CONCLUSION

Upon consultation with a patent attorney and further consideration, the original applicant herein, Guy R. Walter, has determined that Gail P. Walter has contributed to the subject matter of the disclosed invention and should be a named co-inventor when this patent application issues as a U.S. patent. As a result, an Additional Inventor Declaration Form and a Power of Attorney Form signed by the newly proposed co-inventor, Gail P. Walter, are enclosed herewith.

Since the applicants herein believe that they have now provided information to the Examiner about their invention in the format required by the U.S. Patent & Trademark Office and that no new matter has been added while making the needed changes, and they have provided a new set of drawings as required by the Examiner, they respectfully request that their amended and properly enabled claims now be reviewed for patentability and allowed.

Respectfully submitted on behalf of Guy R. Walter and Gail P. Walter by:

A handwritten signature in black ink, appearing to read "Dorothy S. Morse", is written over a horizontal line.

DRAWINGS

Corrected drawings are required by the Examiner as a part of the applicants' response. The photograph filed as a part of the previous response was merely an instructional sheet for the Examiner's benefit, and not intended to be a part of any published patent. Therefore, the applicants have provided a set of 'Replacement Sheets' herein to confirm the illustration the applicant wants as a part of their disclosure. As a result, the applicants respectfully request that the objection on page 2 of the Office Action be withdrawn.
